First, Croco Doc cleans the wound with soap and water.

9

But just as she goes to pet it, the hamster bites her finger! The bite starts to bleed. They better go to the doctor!

Emma and her mom pass by a pet store while they are on a walk one day.

Emma sees a cute hamster and asks her mom if she can have it. Her mom tells her no way!

Emma's birthday is a few weeks later. Her parents have a very big present for her. What could it be?

It's the hamster she saw with her mom! Emma is so happy! She has been dreaming of this hamster for weeks and now she finally has it!

Luckily, Emma and her hamster
have become best friends!

Emma shows Croco Doc the tiny
animal responsible for her injury.

Next, he puts iodine on the bite,
so that it doesn't get infected.

Animal bites are dangerous be-
cause they can give you diseases
such as tetanus or rabies.

Crat checks to see if Emma is
vaccinated against tetanus. She
is!

A couple days later, Bea's wound
is better. It's still important that
she doesn't get it wet for a little
while longer.
