Cut through the black line 

Nina the koala is having a hard time concentrating today at school.

She is so excited because tomorrow is her birthday!

Her friend, Bruno the horse, is not excited though. He is not feeling very well. His head hurts and he is very tired.

As soon as Nina gets home she starts sneezing. She hopes she did not catch Bruno's cold!

7

Croco Doc examines Nina. Her mouth and eyes are dry and she has a fever. Croco Doc is sure that she has the flu.

9

The next morning, Nina's forehead is on fire! Instead of going to school to celebrate her birthday, she has to go to the doctor.

They were all hiding! Nina can finally celebrate her birthday with all of her friends!

At first Nina thinks that Bruno got everyone sick, but then... surprise!

Nina has to rest and drink lots of fluids. Since the flu is a virus, antibiotics won't help her get better.

She has to be very careful not to infect anyone. She has to wear a mask, wash her hands frequently, and stay away from other people.

Croco Doc gives Nina's mother a medicine to help lower her fever.

After a few days, Nina feels well enough to go to school. She is so excited to celebrate her birthday with her classmates, but when she gets there, the class is empty.
